

Overview of Technology programs and ASE Discipline

VERONIKA KOBZEVA

*Sr. Manager,
CTOO Technology
Disciplines & Programs*

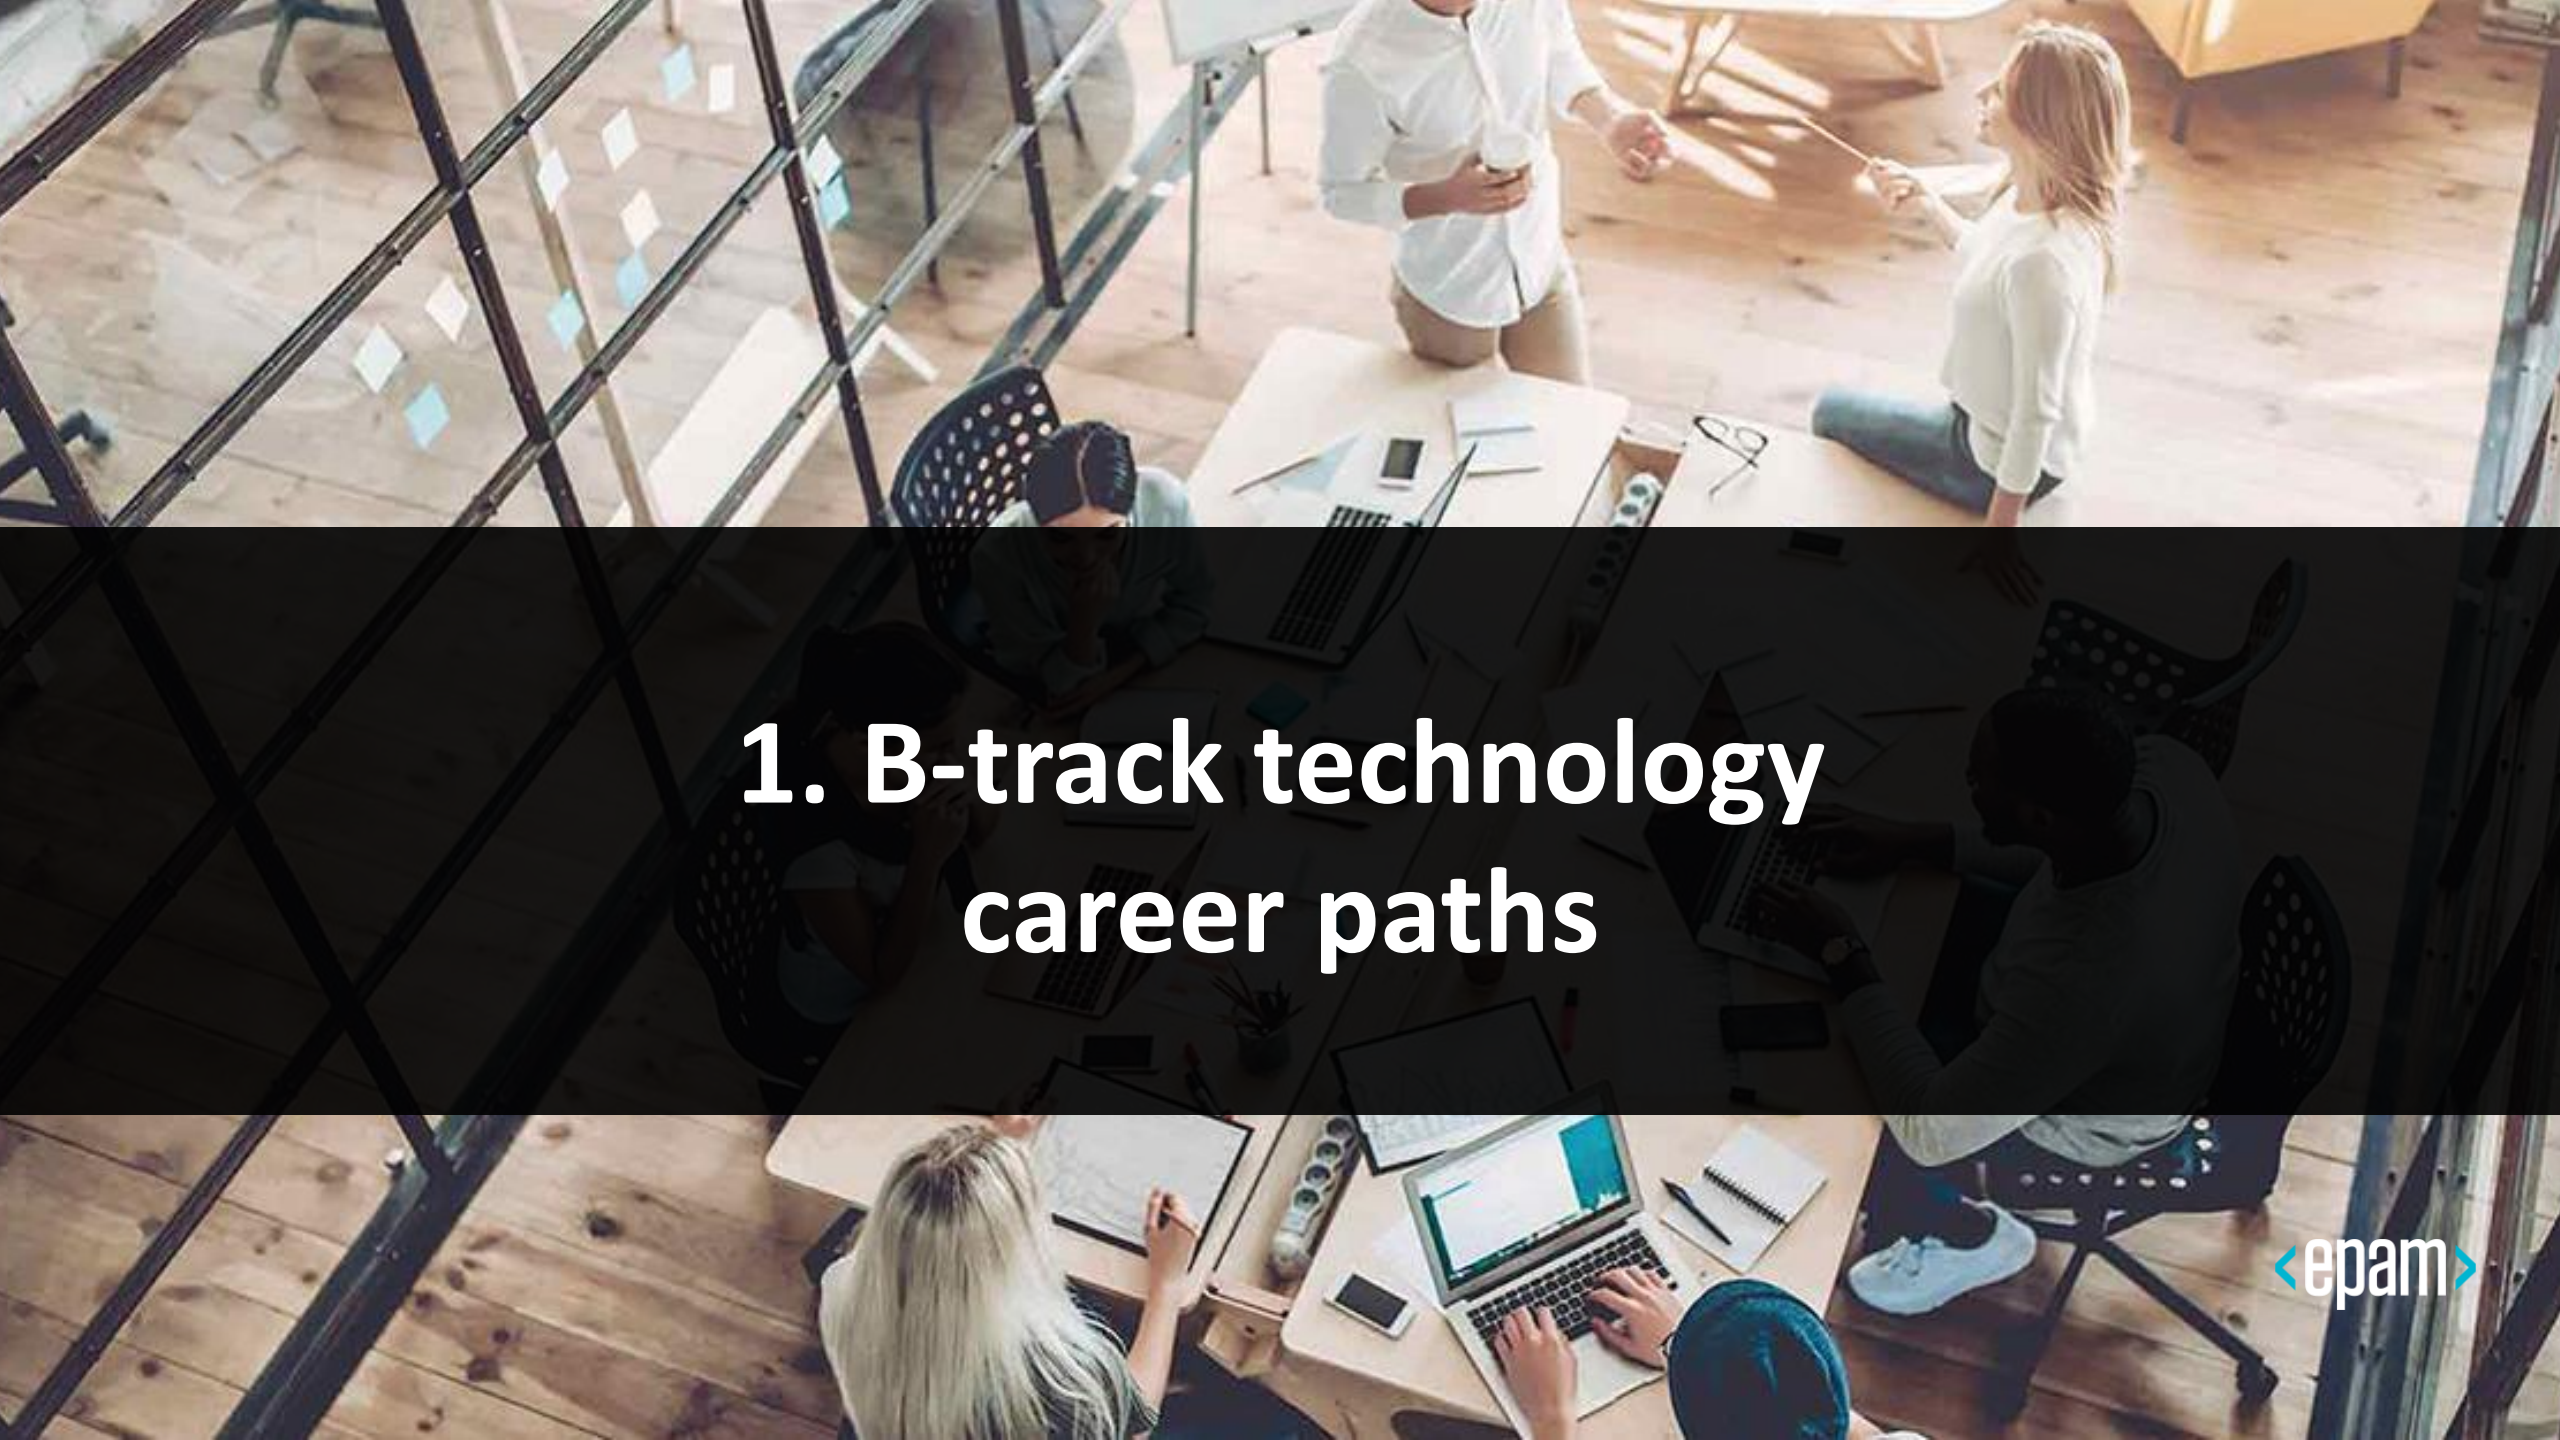

KONSTANTIN PERIKOV

*Associate Principal
Software Engineer,
ASE Discipline co-head*

AGENDA:

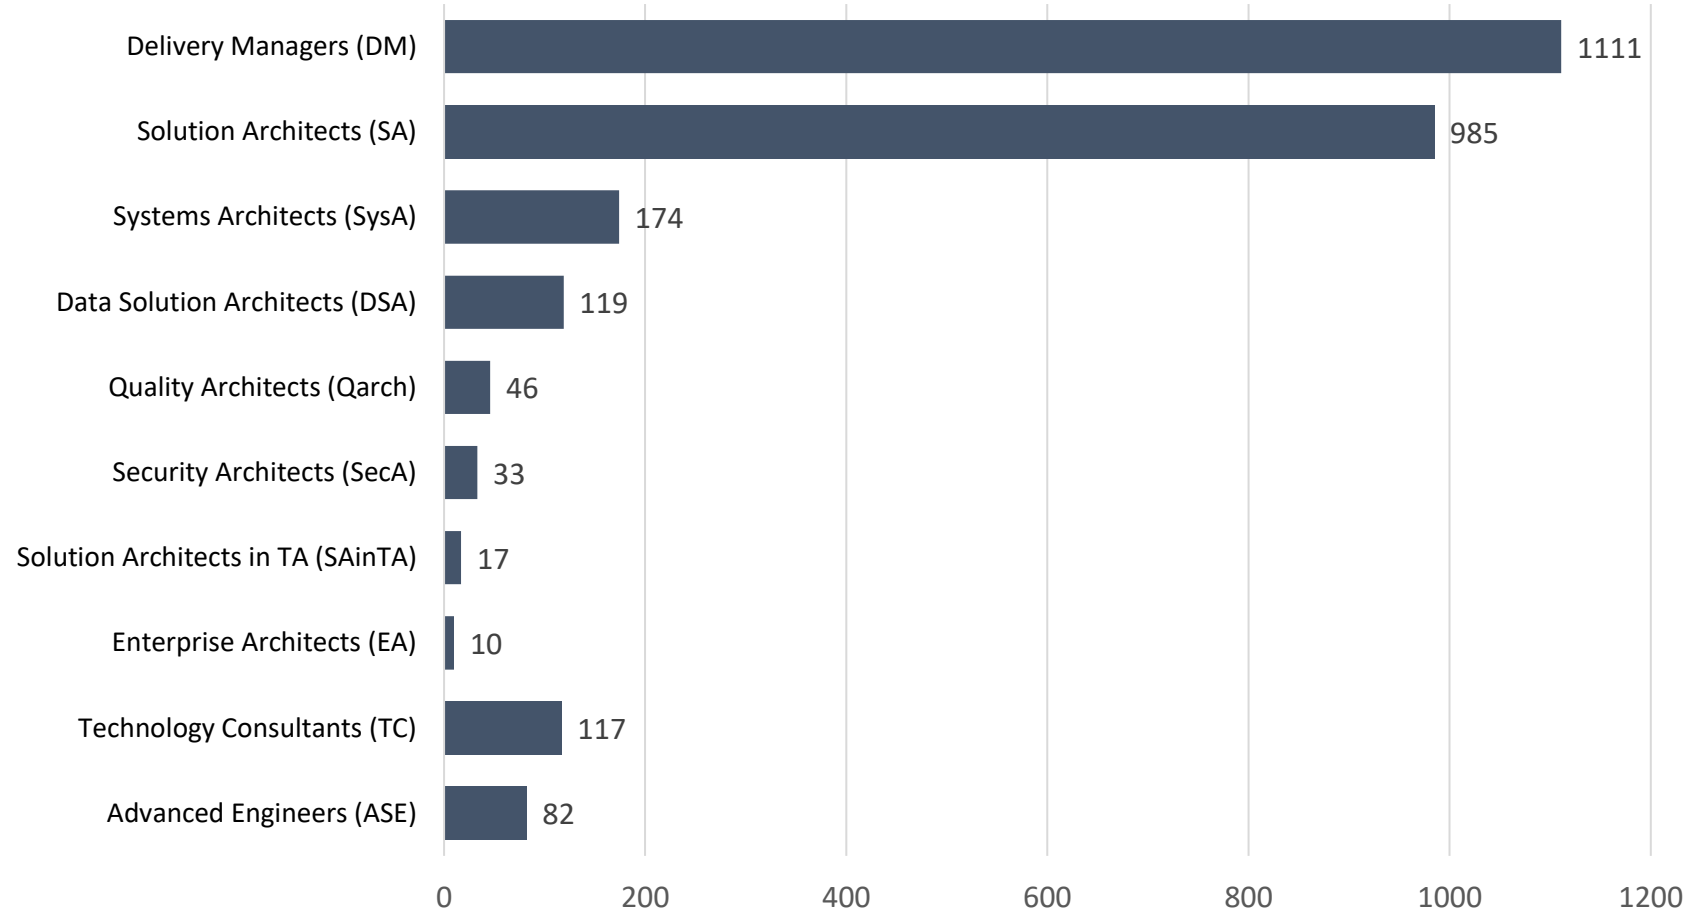

1. B-track technology career paths
2. Technology Learning paths
3. Technology Programs
4. Intro to ASE Discipline
5. Useful resources
6. Q&A

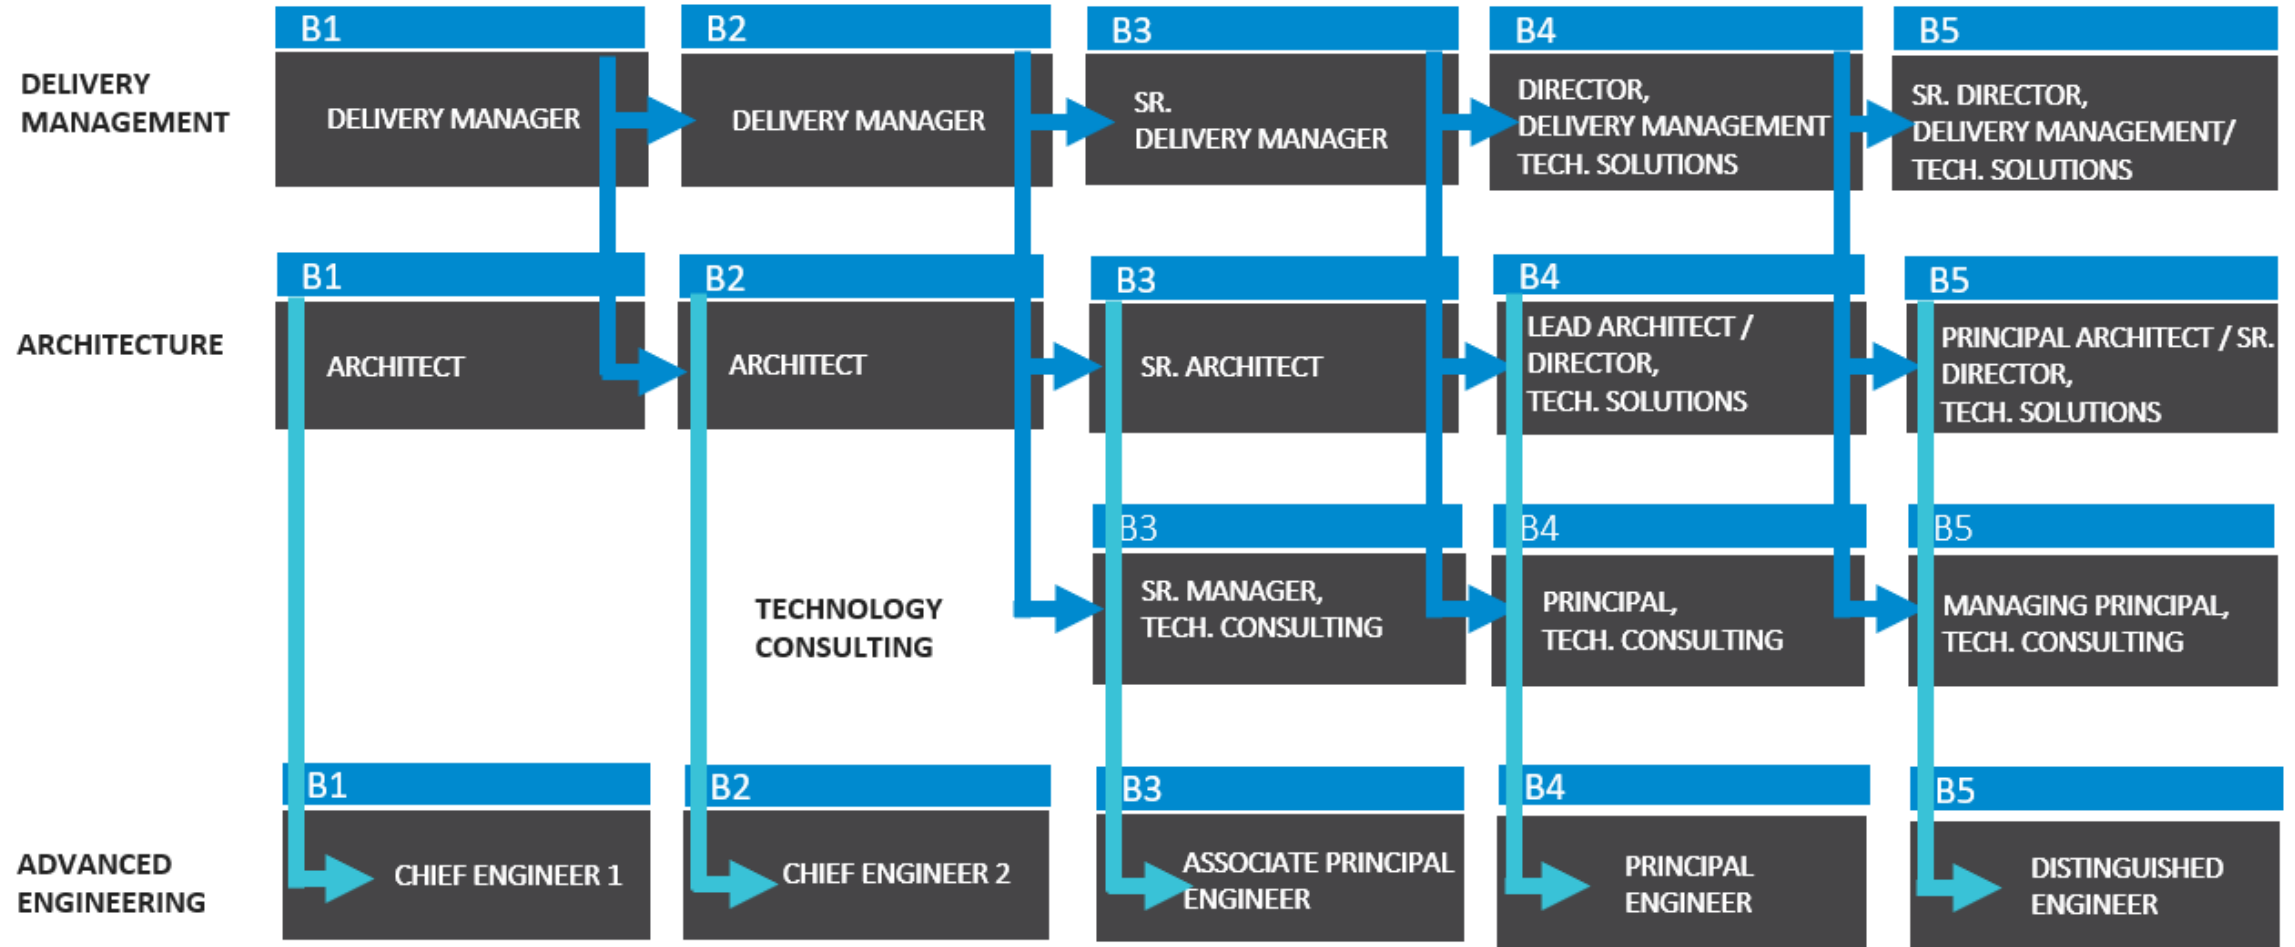

1. B-track technology career paths

NUMBER OF EPAM TECHNOLOGISTS (on Feb 1, 2023)

B-TRACK TECHNOLOGY CAREER PATHS

WHO IS ...

SOLUTION ARCHITECT (SA):

an expert in organization digital transformation who is capable to address organization business goals and strategy using solution /enterprise/business architectures best practices, do all kinds of architectural activities with creation of corresponding artifacts, write code in primary technology stacks and read/understand code for non-primary technology stacks, do technology consulting activities.

<https://epa.ms/whoisSA>
<https://epa.ms/sa>
<https://epa.ms/sa-asmt>

DATA SOLUTION ARCHITECT (DSA):

an expert who empowers organization digital transformation through enterprise data enablement and democratization. DSA is a Solution Architect with strong focus on solutions solving critical business problems using Data as a key asset of the Enterprise, and helping the Enterprise make data-driven business decisions.

<https://epa.ms/whoisDSA>
[DSA title requirements](#)

SOLUTION ARCHITECT IN TEST AUTOMATION (SAinTA):

an expert in Test Automation with a strong knowledge of architectural theory, software development platform(s) and business domain knowledge, who is capable to clarify solution architecture and key functional and non-functional requirements, address business goals, suggest and implement related test strategy with a strong focus on CI/CD, test infrastructure and test automation solution(s), able to do technology consulting activities, create POCs.

<https://epa.ms/SAinTA>

WHO IS ...

SECURITY ARCHITECT (SecA):

an expert who is responsible for designing and implementing Security Programs and Information Security Management Systems (centralized security solutions, secure architectures, implement controls in Secure SDLC, secure infrastructure, and operations) according to security policies, standards, and procedures. This expert produces and maintains architectural artifacts providing structured direction and control to coherent security decisions in complex business and IT landscape.

[SecA title requirements](#)

[SecA Guidelines](#)

[Security CC](#)

SYSTEMS ARCHITECT (SysA):

an expert in design and integrity of the high availability of the infrastructure and disaster recovery processes. S/he ensures that the solution architecture is aligned with the existing IT ecosystem and business needs, and the suggested architecture meets overall goals and expectations, architecture standards, best practices and industry compliance requirements.

<https://epa.ms/whoisSysA>

<https://epa.ms/SysA-education>

QUALITY ARCHITECT (QArch):

an expert who is capable to create detailed and formal test strategy including test automation and non-functional testing and address organization business goals, who performs QA audits, takes part in pre-sales, does consulting activities using EngX and testing best practices.

<https://epa.ms/whoisQArch>

<https://epa.ms/QArch>

<https://epa.ms/qarch-asmt>

WHO IS ...

ENTERPRISE ARCHITECT (EA):

an expert who integrates experience, business and technology strategic planning of required changes for delivering business outcome according to business vision and strategy.

<https://epa.ms/EA>
<https://epa.ms/WhoIsEA>

ADVANCED SOFTWARE ENGINEER (ASE):

an expert focused on hands-on engineering solving technical challenges for EPAM and its Clients. Advanced Engineering is responsible for software engineering, building Platforms, Ecosystems, Products for EPAM and its Clients with a focus on Business through Systems Engineering approaches.

<https://epa.ms/whoisASE>
<https://epa.ms/ase>
<https://epa.ms/ase-asmt>

TECHNOLOGY CONSULTANT (TC):

an expert focused on building Technology Strategy and/or its parts in tight relation with organization Business Strategy, supporting it with full-scale transformation for Technology Architecture and Technology Organization.

<https://epa.ms/whoisTC>
<https://epa.ms/tc>
<https://epa.ms/tc-asmt>

TECHNOLOGY DISCIPLINES: TITLES AND SKILLSET

Discipline	Job Function	Titles	Primary Skills	Key Skills	Potential Candidates may grow in this area
Solution Architecture by Org Skills Owners Solution Architecture	Architecture	• B1 = <u>Software Architect</u> (= Associate Solution Architect) • B1 = Solution Architect I • B2 = Solution Architect II • B3 = Sr. Solution Architect • B4 = Lead Solution Architect / Director, Tech Solutions • B5 = Principal Solution Architect / Sr. Director, Tech Solutions	• Solution Architecture • Technology Consulting (only from B3+)	Java / .Net / Sitecore / SAP / Cloud.Azure / Cloud.AWS / Cloud.Goodle / JS / Adobe AEM / Node.js / Drupal / C++ / Salesforce / / Oracle / API / ESB / iOS Objectives-C / DWBI / BPM / PEGA / AADAM / Front-End-Development / Magento / PHP / etc.	• Lead Software Engineers A4+
Solution Architecture in Test Automation by Org Skills Owners Solution Architecture in TA		• B1 = <u>Software Architect</u> (= Associate Solution Architect) • B1 = Solution Architect I • B2 = Solution Architect II • B3 = Sr. Solution Architect • B4 = Lead Solution Architect / Director, Tech Solutions • B5 = Principal Solution Architect / Sr. Director, Tech Solutions	• Solution Architecture in Test Automation (B1-B2) • Solution Architecture (B3-5)	SET / Automated Testing / etc.	• Lead Software Engineer in Test A4+ • Lead Test Automation Engineers A4+
Data Solution Architecture by Org Skills Owners Data Solution Architecture		• B1 = <u>Software Architect</u> (= Associate Solution Architect) • B1 = Data Solution Architect I • B2 = Data Solution Architect II • B3 = Sr. Data Solution Architect • B4 = Lead Data Solution Architect / Director, Tech Solutions • B5 = Principal Data Solution Architect / Sr. Director, Tech Solutions	• Data Solution Architecture	Big data / Data Solution Architecture / Data Software Engineering / etc.	• Lead Software Engineers A4+
Security Architecture by Org Skills Owners Security Architecture		• B1 = Security Architect I • B2 = Security Architect II • B3 = Sr. Security Architect • B4 = Lead Security Architect / Director, Tech Solutions • B5 = Principal Security Architect / Sr. Director, Tech Solutions	• Security.Cloud • Security.Data / • Security.Development • Security.Engineering • Security.IAM • Security.Network • Security.Operations • Security.Risks • Security.Testing	Any	• Lead Security Systems Engineers A4+

TECHNOLOGY DISCIPLINES: TITLES AND SKILLSET

Discipline	Job Function	Titles	Primary Skills	Key Skills	Potential Candidates may grow in this area
Systems Architecture by Org Skills Owners Systems Architecture	Architecture	- B1 = Systems Architect I - B2 = Systems Architect II - B3 = Sr. Systems Architect - B4 = Lead Systems Architect / Director, Tech Solutions - B5 = Principal Systems Architect / Sr. Director, Tech Solutions	Systems Architecture	DevOps.CI/CD / DevOps.Containers / DevOps.IaC / Google Cloud Platform / Amazon AWS Security / OpenStack / Microsoft Azure / VMware Cloud on AWS / Support.Infrastructure / Support.Application / Support.Data / Data DevOps / Operational Intelligence / Site Reliability Engineering (other – DEP) etc.	Lead Systems Engineers A4+
Quality Architecture by Org Skills Owners Quality Architecture		- B1 = Quality Architect I - B2 = Quality Architect II - B3 = Sr. Quality Architect - B4 = Lead Quality Architect / Director, Tech Solutions - B5 = Principal Quality Architect / Sr. Director, Tech Solutions	Quality Architecture	Automated Testing / Functional Testing / SET.NET / SET.Java.Web & Desktop / etc.	- Lead Software Engineer in Test Engineer A4+ - Lead Software Test Automation Engineer A4+ - Lead Software Testing Engineer A4+ - Lead Security Testing Engineer A4+
Enterprise Architecture by Org Skills Owners Enterprise Architecture		- B1 = Enterprise Architect I - B2 = Enterprise Architect II - B3 = Sr. Enterprise Architect - B4 = Lead Enterprise Architect / Director, Enterprise Architecture - B5 = Principal Enterprise Architect / Sr. Director, Enterprise Architecture	Enterprise Architecture	Strategic Consulting / Technology Consulting / Experience Consulting / Business Consulting / etc.	- Solution Architect B1+ - Delivery Manager B1+ - Technology Consultant B3+

TECHNOLOGY DISCIPLINES: TITLES AND SKILLSET

Discipline	Job Function	Titles	Primary Skills	Key Skills	Potential Candidates may grow in this area
Advanced Software Engineering by AskAdvEng	Advanced Engineering	• B1 = Associate Chief Software Engineer • B2 = Chief Software Engineer II • B3 = Associate Principal Software Engineer • B4 = Principal Software Engineer • B5 = Distinguished Software Engineer	• Java / .Net / JS / Sitecore / SAP /SAP Commerce Cloud (Hybris Commerce) / iOS Swift/ Data Software Engineering / C++ / etc.	Any	• Lead Software Engineers A4+
Technology Consulting by Org Skill Owners Technology Consulting	Technology Consulting	• B1 = N/a • B2 = N/a • B3 = Sr. Manager, Technology Consulting • B4 = Principal, Technology Consulting • B5 = Managing Principal , Technology Consulting	• Technology Consulting	Relevant for Solution / Enterprise Architects & Delivery Managers	• Solution Architect B3+ • Enterprise Architect B3+ • Delivery Manager B3+

TALENT PROFILE IN PEOPLE.EPAM.COM

Organizational Attributes

Profile Type	Employee
Profile Subtype	Employee
Engagement Type	None
Calendar Type	Full-Time
Job Function	Architecture
Track & Level	B5
Title	Principal Solution Architect
Primary Skill ⓘ	Solution Architecture (Request a change)

Locations

Legal Entity (Location)	EPAM Systems,BY(USD 2010) (CIS/Belarus/Minsk)
Assigned Location (AL)	CEE/Poland/Warsaw/Grzybowska, 62

2. Technology Learning paths

70-20-10 DEVELOPMENT MODEL

EXPERIMENTAL LEARNING (70%)

- ✓ Project assignments & problem solving
- ✓ Expansion of roles & responsibilities
- ✓ Challenging tasks
- ✓ Auditing/reviewing
- ✓ Innovation
- ✓ Reflection

EPAM Platforms:

- [Plus](#) (under EPAM VPN)
- [Opportunities](#)
- [EPAM Anywhere](#)

SOCIAL LEARNING (20%)

- ✓ Giving & receiving feedback
 - [Feedback](#)
 - [Assessment](#)
 - [Technical Interviewing](#)
- ✓ Collaboration and after-action reviews:
 - Coaching
 - Mentoring ([TMP](#))
- ✓ Learning in networks:
 - [Communities](#) ([TEI](#)) / [Networks](#)

FORMAL LEARNING (10%)

- ✓ Onboarding self-paced modules
- ✓ L&D solutions:
 - Trainings ([Learn](#) / [LinkedIn](#))
 - Programs ([SAS](#))
 - Certifications ([TSU](#))
- ✓ Library
 - [EPAM Library](#)
- ✓ [O'Reilly](#) / [getAbstract](#) / [LitRes](#)
- ✓ [SA/ASE/TC](#) books

BUILD A PERSONAL DEVELOPMENT PLAN BY FOLLOWING 70-20-10 MODEL

70-20-10 DEVELOPMENT MODEL

Continuous Technology Learning Ecosystem of structured role descriptions and sequenced learning roadmaps lets you gain more control over your professional growth and achieve long-term career aspirations.

TECHNOLOGY LEARNING PATHS

Architecture	Advanced Engineering	Technology Consulting	Delivery Management
▪ Solution Architecture (SA) ▪ Data Solution Architecture (DSA) ▪ Systems Architecture (SysA) ▪ Security Architecture (SecA) ▪ Quality Architecture (QArch) ▪ Solution Architecture in Test Automation (SAinTA)	▪ Advanced Software Engineering (ASE)	▪ Technology Consulting (TC)	▪ Delivery Management (DM)

TECHNOLOGY CONSULTING (TC)

OTHER

<https://technology-learning-paths>

Technology Excellence Initiative (TEI)

Internal global educational community of B-track technologists focused on spreading knowledge, best practices, case studies & lessons learned based on the accumulated experience of EPAM Technology experts.

- ✓ **Audience:** A3+/B1+ (Architects / Advanced Engineers / Delivery Managers / Technology Consultants + included by default)
- ✓ **What's inside:** educational [webinars](#), [round tables](#) and [tech newsletters](#)
- ✓ **Source:** <https://epa.ms/tei>

Solution Architecture Onboarding (SAO)

Onboarding eLearning module for newly joined EPAM Solution Architects that gives an overview of company tools, processes, infrastructure, useful sources that can help in daily activities.

- ✓ **Audience:** A4+/SA1+
- ✓ **What's inside:** onboarding module & orientations webinars
- ✓ **Source:** <https://epa.ms/sao> (KB) & <https://epa.ms/sao-module> (e-Learning onboarding + quizzes)

Solution Architecture School (SAS)

4+ month long program based on experience and best practices by EPAM Solution Architect that helps to learn SA theoretical foundation and architecture practice, train design skills, develop wide vision in technologies and architecture patterns and become an EPAM Solution Architect.

- ✓ **Audience:** A4+
- ✓ **What's inside:** theoretical trainings, quizzes, Q&A, workshops, homework, graduate work, intensive self-education
- ✓ **Source:** <https://epa.ms/sas> (KB) & <https://epa.ms/sas-online> (SAS e-Learning)

Technology Mentoring Program (TMP)

Practice-oriented 4-month long education whereby a Mentor passes on their experience to help a Mentee to achieve their practical goals, implement changes in work, and develop their growth mindset.

- ✓ **Audience:** A4+ / Technologists B1+
- ✓ **What's inside:** 1on1/group mentoring based on mentee's goals
- ✓ **Source:** <https://epa.ms/tmp> (KB) & <https://epa.ms/tmp-training> (TMP eLearning training)

Global Solution Architecture Team (GSAT)

Internal global core architectural community that drives SA Discipline development, consults EPAM customers, runs SA educational programs and initiatives, develops next generation artifacts as well as best practices.

- ✓ **Audience:** SA1+
- ✓ **What's inside:** news& updates calls, online architectural work groups on developing SA best practices and EPAM SA Discipline, project opportunities from EPAM business
- ✓ **Source:** <https://epa.ms/gsat>

Architectural Katas

Online training which helps to practice SA skills (discover requirement, drive the decision-making process on architecture, communicate design decisions for stakeholders) as well as get prepared for the workshop session during the Solution Architecture Assessment.

- ✓ **Audience:** A4+/B1
- ✓ **What's inside:** workshop (project development withing a group)
- ✓ **Source:** <https://epa.ms/sa-katas>

Technology Solutions University (TSU)

3-month long program that allows receiving external certification of the worldwide technology learning leaders.

- ✓ **Audience:** Technologists B1+
- ✓ **What's inside:** books, online trainings & exam certifications
- ✓ **Source:** <https://epa.ms/tsu>

Automated Testing Mentoring: Advanced

The program helps to gain experience with new technologies and tools and fill technical gaps required for A3 level.

- ✓ **Audience:** A2+
- ✓ **What's inside:** learning modules, practical tasks
- ✓ **Source:** [Learn](#) / [KB](#)

Automated Testing Mentoring: Expert

The program helps to to evaluate testing tools and approaches, create high-level test documentation such as test strategy and test plan, evaluate and set up appropriate QA process, manage a small team.

- ✓ **Audience:** A3+
- ✓ **What's inside:** learning modules, practical tasks
- ✓ **Source:** [Learn](#) / [KB](#)

Technology Excellence Initiative (TEI)

Internal global educational community of B-track technologists focused on spreading knowledge, best practices, case studies & lessons learned based on the accumulated experience of EPAM Technology experts.

- ✓ **Audience:** A3+/B1+
- ✓ **What's inside:** educational [webinars](#), [round tables](#) and [tech newsletters](#)
- ✓ **Source:** <https://epa.ms/tei>

SA School for TA (SAS4TA)

The program helps to learn architecture theoretical foundation and architecture practice, train design skills, develop wide vision in technologies and architecture patterns and become an EPAM SAinTA.

- ✓ **Audience:** A4+
- ✓ **What's inside:** theoretical trainings, quizzes, Q&A, workshops, homework, graduate work, intensive self-education
- ✓ **Source:** <https://epa.ms/sas4ta> (KB) & <https://epa.ms/sas-online> (SAS e-Learning)

Architectural Katas

Online training which helps to practice SA skills (discover requirement, drive the decision-making process on architecture, communicate design decisions for stakeholders) as well as get prepared for the workshop session during the Solution Architecture Assessment.

- ✓ **Audience:** A4+/B1
- ✓ **What's inside:** workshop (project development withing a group)
- ✓ **Source:** <https://epa.ms/sa-katas>

Technology Mentoring Program (TMP)

Practice-oriented 4-month long education whereby a Mentor passes on their experience to help a Mentee to achieve their practical goals, implement changes in work, and develop their growth mindset.

- ✓ **Audience:** A4+ / Technologists B1+
- ✓ **What's inside:** 1on1/group mentoring based on mentee's goals
- ✓ **Source:** <https://epa.ms/tmp> (KB) & <https://epa.ms/tmp-training> (TMP eLearning training)

Technology Solutions University (TSU)

3-month long program that allows receiving external certification of the worldwide technology learning leaders.

- ✓ **Audience:** Technologists B1+
- ✓ **What's inside:** books, online trainings & exam certifications
- ✓ **Source:** <https://epa.ms/tsu>

Technology Excellence Initiative (TEI)

Internal global educational community of B-track technologists focused on spreading knowledge, best practices, case studies & lessons learned based on the accumulated experience of EPAM Technology experts.

- ✓ **Audience:** A3+/B1+ (Architects / Advanced Engineers / Delivery Managers / Technology Consultants + included by default)
- ✓ **What's inside:** educational [webinars](#), [round tables](#) and [tech newsletters](#)
- ✓ **Source:** <https://epa.ms/tei>

Data Solution Architecture Onboarding (DSAO)

Onboarding eLearning module for newly joined EPAM Data Solution Architects that gives the basic information on how data solution architecture is viewed at EPAM; provides a structured overview of DSA role and activities; and outlines growth and development opportunities DSAs have at EPAM.

- ✓ **Audience:** A4+/DSA1+
- ✓ **What's inside:** onboarding module & orientations webinars
- ✓ **Source:** <https://epa.ms/dsao> & <https://epa.ms/dsao-webinar>

Solution Architecture School (SAS)

4+ month long program based on experience and best practices by EPAM Solution Architect that helps to learn SA theoretical foundation and architecture practice, train design skills, develop wide vision in technologies and architecture patterns and become an EPAM Solution Architect.

- ✓ **Audience:** A4+
- ✓ **What's inside:** theoretical trainings, quizzes, Q&A, workshops, homework, graduate work, intensive self-education
- ✓ **Source:** <https://epa.ms/sas> (KB) & <https://epa.ms/sas-online> (SAS e-Learning)

Architectural Katas

Online training which helps to practice SA skills (discover requirement, drive the decision-making process on architecture, communicate design decisions for stakeholders) as well as get prepared for the workshop session during the Solution Architecture Assessment.

- ✓ **Audience:** A4+/B1
- ✓ **What's inside:** workshop (project development withing a group)
- ✓ **Source:** <https://epa.ms/sa-katas>

Technology Mentoring Program (TMP)

Practice-oriented 4-month long education whereby a Mentor passes on their experience to help a Mentee to achieve their practical goals, implement changes in work, and develop their growth mindset.

- ✓ **Audience:** A4+ / Technologists B1+
- ✓ **What's inside:** 1on1/group mentoring based on mentee's goals
- ✓ **Source:** <https://epa.ms/tmp> (KB) & <https://epa.ms/tmp-training> (TMP eLearning training)

Global Solution Architecture Team (GSAT)

Internal global core architectural community that drives SA Discipline development, consults EPAM customers, runs SA educational programs and initiatives, develops next generation artifacts as well as best practices.

- ✓ **Audience:** SA1+
- ✓ **What's inside:** news& updates calls, online architectural work groups on developing SA best practices and EPAM SA Discipline, project opportunities from EPAM business
- ✓ **Source:** <https://epa.ms/gsat>

Technology Solutions University (TSU)

3-month long program that allows receiving external certification of the worldwide technology learning leaders.

- ✓ **Audience:** Technologists B1+
- ✓ **What's inside:** books, online trainings & exam certifications
- ✓ **Source:** <https://epa.ms/tsu>

Technology Excellence Initiative (TEI)

Internal global educational community of B-track technologists focused on spreading knowledge, best practices, case studies & lessons learned based on the accumulated experience of EPAM Technology experts.

- ✓ **Audience:** A3+/B1+ (Architects / Advanced Engineers / Delivery Managers / Technology Consultants + included by default)
- ✓ **What's inside:** educational [webinars](#), [round tables](#) and [tech newsletters](#)
- ✓ **Source:** <https://epa.ms/tei>

Technology Solutions University (TSU)

3-month long program that allows receiving external certification of the worldwide technology learning leaders.

- ✓ **Audience:** Technologists B1+
- ✓ **What's inside:** books, online trainings & exam certification
- ✓ **Source:** <https://epa.ms/tsu>

Solution Architecture School (SAS)

4+ month long program based on experience and best practices by EPAM Solution Architect that helps to learn SA theoretical foundation and architecture practice, train design skills, develop wide vision in technologies and architecture patterns and become an EPAM Solution Architect.

- ✓ **Audience:** A4+
- ✓ **What's inside:** theoretical trainings, quizzes, Q&A, workshops, homework, graduate work, intensive self-education
- ✓ **Source:** <https://epa.ms/sas> (KB) & <https://epa.ms/sas-online> (SAS e-Learning)

Security Certifications

An educational initiative where the participants can get vouchers to pass wide range of Security Certifications depending on their level.

- ✓ **Audience:** A1+ / SA1, SA2 / SD1, SD2
- ✓ **What's inside:** list of certifications at participant's choice
- ✓ **Source:** <https://kb.epam.com/display/EPMCSEC/Security+Certifications>

DevOps Mentoring Program

Global mentoring program which allows to get overview of methodologies and DevOps practice in general.

- ✓ **Audience:** A2-4
- ✓ **What's inside:** self-study materials (lectures, books), home tasks
- ✓ **Source:** <https://epa.ms/DevOpsGMP>

CloudX L1 Foundations Self-Paced Course
CloudX L2 Associate Program

Global program which supports employees' growth in cloud computing based on modern trends and clients' needs.

- ✓ **Audience:** A1+; A2+
- ✓ **What's inside:** self-study materials with quizzes, home tasks and Q&A sessions
- ✓ **Source:** <https://epa.ms/CloudX-Program>

AWS / Microsoft / Google Cloud
Associate

This program helps to get prepared and pass AWS / Microsoft / Google Cloud certifications.

- ✓ **Audience:** A2+/B1+
- ✓ **What's inside:** free designed learning materials and a free voucher (where applicable); AWS /Azure role-base /GCP Certification
- ✓ **Source:** <https://epa.ms/CloudXEduProgram>

Technology Excellence Initiative (TEI)

Internal global educational community of B-track technologists focused on spreading knowledge, best practices, case studies & lessons learned based on the accumulated experience of EPAM Technology experts.

- ✓ **Audience:** A3+/B1+ (Architects / Advanced Engineers /Delivery Managers / Technology Consultants + included by default)
- ✓ **What's inside:** educational [webinars](#), [round tables](#) and [tech newsletters](#)
- ✓ **Source:** <https://epa.ms/tei>

Solution Architecture School (SAS)

4+ month long program based on experience and best practices by EPAM Solution Architect that helps to learn SA theoretical foundation and architecture practice, train design skills, develop wide vision in technologies and architecture patterns and become an EPAM Solution Architect.

- ✓ **Audience:** A4+
- ✓ **What's inside:** theoretical trainings, quizzes, Q&A, workshops, homework, graduate work, intensive self-education
- ✓ **Source:** <https://epa.ms/sas> (KB) & <https://epa.ms/sas-online> (SAS e-Learning)

CloudX L3 Professional: Cloud
Architecture Basics
CloudX L3 Professional: AWS / MS
Azure / GCP

Global program aimed at obtaining a hands-on experience on proposing, designing, maintaining, managing, and provisioning systems in cloud environments.

- ✓ **Audience:** A4-.B2;
- ✓ **What's inside:** self-study materials with quizzes, workshops with experts
- ✓ **Source:** <https://epa.ms/CloudX-Program>

Technology Solutions University (TSU)

3-month long program that allows receiving external certification of the worldwide technology learning leaders.

- ✓ **Audience:** Technologists B1+
- ✓ **What's inside:** books, online trainings & exam certification
- ✓ **Source:** <https://epa.ms/tsu>

Technology Excellence Initiative (TEI)

Internal global educational community of B-track technologists focused on spreading knowledge, best practices, case studies & lessons learned based on the accumulated experience of EPAM Technology experts.

- ✓ **Audience:** A3+/B1+ (Architects / Advanced Engineers /Delivery Managers / Technology Consultants + included by default)
- ✓ **What's inside:** educational [webinars](#), [round tables](#) and [tech newsletters](#)
- ✓ **Source:** <https://epa.ms/tei>

Technology Solutions University (TSU)

3-month long program that allows receiving external certification of the worldwide technology learning leaders.

- ✓ **Audience:** Technologists B1+
- ✓ **What's inside:** books, online trainings & exam certification
- ✓ **Source:** <https://epa.ms/tsu>

Quality Architecture School (QAS)

6,5-months long program educational program for the employees growing in the Quality Architecture direction. The goal of this course is to upskill D4+ resources with knowledge from Quality Architecture discipline.

- ✓ **Audience:** A4+
- ✓ **What's inside:** online modules, quizzes, homework, graduate work
- ✓ **Source:** <https://epa.ms/qas>

Technology Excellence Initiative (TEI)

Internal global educational community of B-track technologists focused on spreading knowledge, best practices, case studies & lessons learned based on the accumulated experience of EPAM Technology experts.

- ✓ **Audience:** A3+/B1+ (Architects / Advanced Engineers / Delivery Managers / Technology Consultants + included by default)
- ✓ **What's inside:** educational [webinars](#), [round tables](#) and [tech newsletters](#)
- ✓ **Source:** <https://epa.ms/tei>

Solution Architecture School (SAS)

4+ month long program based on experience and best practices by EPAM Solution Architect that helps to learn SA theoretical foundation and architecture practice, train design skills, develop wide vision in technologies and architecture patterns and become an EPAM Solution Architect.

- ✓ **Audience:** A4+
- ✓ **What's inside:** theoretical trainings, quizzes, Q&A, workshops, homework, graduate work, intensive self-education
- ✓ **Source:** <https://epa.ms/sas> (KB) & <https://epa.ms/sas-online> (SAS e-Learning)

ASE Onboarding (ASEO)

Onboarding module for newly joined EPAM Advanced Software Engineers that gives an overview of company tools, processes, infrastructure, useful sources that can help in daily activities.

- ✓ **Audience:** A4+/ASE1+
- ✓ **What's inside:** onboarding module & orientations webinars
- ✓ **Source:** <https://epa.ms/aseo> (KB) & <https://epa.ms/ASEOmodule> (e-Learning onboarding + quizzes)

Advanced Engineering Network (AEN)

A fellowship of self-motivated and self-organized professionals who are interested in solving the most complex technical challenges and sharing their knowledge.

- ✓ **Audience:** A4+/SA1+
- ✓ **What's inside:** activities, contribution, hacathon
- ✓ **Source:** <https://epa.ms/aen>

Advanced Software Engineering Team (ASET)

This is a global core community of Advanced Software Engineers who propagate high engineering vulture, develop best practices, coordinate ASE initiatives, make impact on our clients and technology as well as serve as a role model for engineers.

- ✓ **Audience:** ASE1+
- ✓ **What's inside:** news& updates calls, ASE work groups on developing ASE best practices and EPAM ASE Discipline, project opportunities from EPAM business.
- ✓ **Source:** <https://epa.ms/aset>

Technology Mentoring Program (TMP)

Practice-oriented 4-month long education whereby a Mentor passes on their experience to help a Mentee to achieve their practical goals, implement changes in work, and develop their growth mindset.

- ✓ **Audience:** A4+ / Technologists B1+
- ✓ **What's inside:** 1on1/group mentoring based on mentee's goals
- ✓ **Source:** <https://epa.ms/tmp> (KB) & <https://epa.ms/tmp-training> (TMP eLearning training)

Technology Solutions University (TSU)

3-month long program that allows receiving external certification of the worldwide technology learning leaders.

- ✓ **Audience:** Technologists B1+
- ✓ **What's inside:** books, online trainings & exam certification
- ✓ **Source:** <https://epa.ms/tsu>

Technology Excellence Initiative (TEI)

Internal global educational community of B-track technologists focused on spreading knowledge, best practices, case studies & lessons learned based on the accumulated experience of EPAM Technology experts.

- ✓ **Audience:** A3+/B1+ (Architects / Advanced Engineers / Delivery Managers / Technology Consultants + included by default)
- ✓ **What's inside:** educational [webinars](#), [round tables](#) and [tech newsletters](#)
- ✓ **Source:** <https://epa.ms/tei>

Technology Solutions University (TSU)

3-month long program that allows receiving external certification of the worldwide technology learning leaders.

- ✓ **Audience:** Technologists B1+
- ✓ **What's inside:** books, online trainings & exam certification
- ✓ **Source:** <https://epa.ms/tsu>

Technology Consulting Onboarding (TCO)

Onboarding module for newly joined EPAM Solution Architects that gives an overview of company tools, processes, infrastructure, useful sources that can help in daily activities.

- ✓ **Audience:** A4+/SA1+
- ✓ **What's inside:** onboarding module & orientations webinars
- ✓ **Source:** <https://epa.ms/tco> & <https://epa.ms/tco-webinar>

Technology Mentoring Program (TMP)

Practice-oriented 4-month long education whereby a Mentor passes on their experience to help a Mentee to achieve their practical goals, implement changes in work, and develop their growth mindset.

- ✓ **Audience:** A4+ / Technologists B1+
- ✓ **What's inside:** 1on1/group mentoring based on mentee's goals
- ✓ **Source:** <https://epa.ms/tmp> (KB) & <https://epa.ms/tmp-training> (TMP eLearning training)

3. Technology Programs

TECHNOLOGY B-TRACK PROGRAMS

Under Technology Programs umbrella we continued integration of all B-track technologists in a wide global community to:

- develop wide cross-discipline technology knowledge and experience sharing
- use power of this community to drive our learning & development as well as to address business needs

OUR INITIATIVES

Technology.epam.com

Learn current technology trends, select optimal technologies and design effective technological decisions.

Technology Excellence Initiative (TEI) community

Join our global wide B-track community to keep up with latest technology trends and news, project case-studies, and accumulated experience of EPAM technologists.

Technology Mentoring Program (TMP)

Become a Mentor to guide technologists or apply as a Mentee to practice your skills based on individual professional goals through advisory / job shadowing / internship / etc.

Technology Solutions University (TSU) program

Apply for technology faculties according to your target career and get certified / pass trainings of the worldwide leaders in technology learning solutions (60+ external vendors).

Technology Onboarding

Learn basics about EPAM technology disciplines and roles, as well as ask questions during orientation webinars with technology experts.

Technology Vision round tables

Join round tables and discussions on trends and how they impact EPAM with C-level technology leaders.

Technology Recognition program

Contribute, share, improve, grow, become visible and get recognized thanks to a special program for B-track technologists across EPAM that won't let your work go unnoticed. Check it out!

TECHNOLOGY ONBOARDING

SOLUTION ARCHITECTURE ONBOARDING (SAO)

- Self-paced course [SA Onboarding \(SAO\)](#)
- Webinar [Intro to Solution Architecture discipline](#)

DATA SOLUTION ARCHITECTURE ONBOARDING (DSAO)

- Self-paced course [DSA Onboarding \(DSAO\)](#)
- Webinar [Intro to Data Solution Architecture discipline](#)

ADVANCED SOFTWARE ENGINEERING ONBOARDING (ASEO)

- Self-paced course [ASE Onboarding \(ASEO\)](#)
- Webinar [Intro to Advanced Software Engineering](#)

TECHNOLOGY CONSULTING (TC)

- Self-paced course [TC Onboarding \(TCO\)](#)
- Webinar [Intro to Technology Consulting](#)

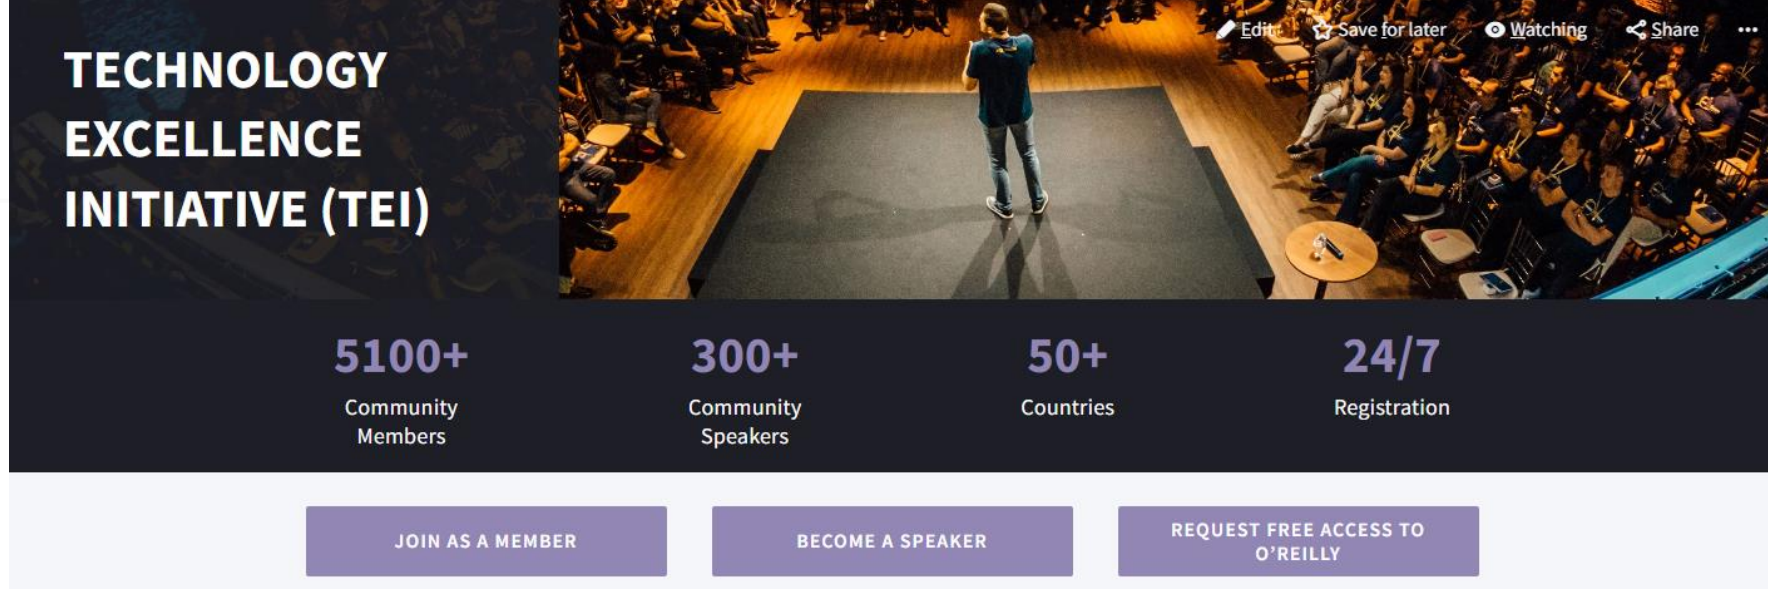

TARGET AUDIENCE:

- B1+ Architects / Advanced Engineers / Technology Consultants are included by default and other interested parties

OPPORTUNITY:

- Join as a participant by following the links above

<https://epa.ms/technology-onboarding>

**TECHNOLOGY
EXCELLENCE
INITIATIVE (TEI)**

5100+
Community
Members

300+
Community

Registration

JOIN AS A MEMBER

BECOME A SPEAKER

REQUEST FREE ACCESS TO
O'REILLY

Internal global educational community focused on spreading knowledge about Technology best practices, case-studies, lessons learned, and technology experience.

WHAT'S INSIDE:

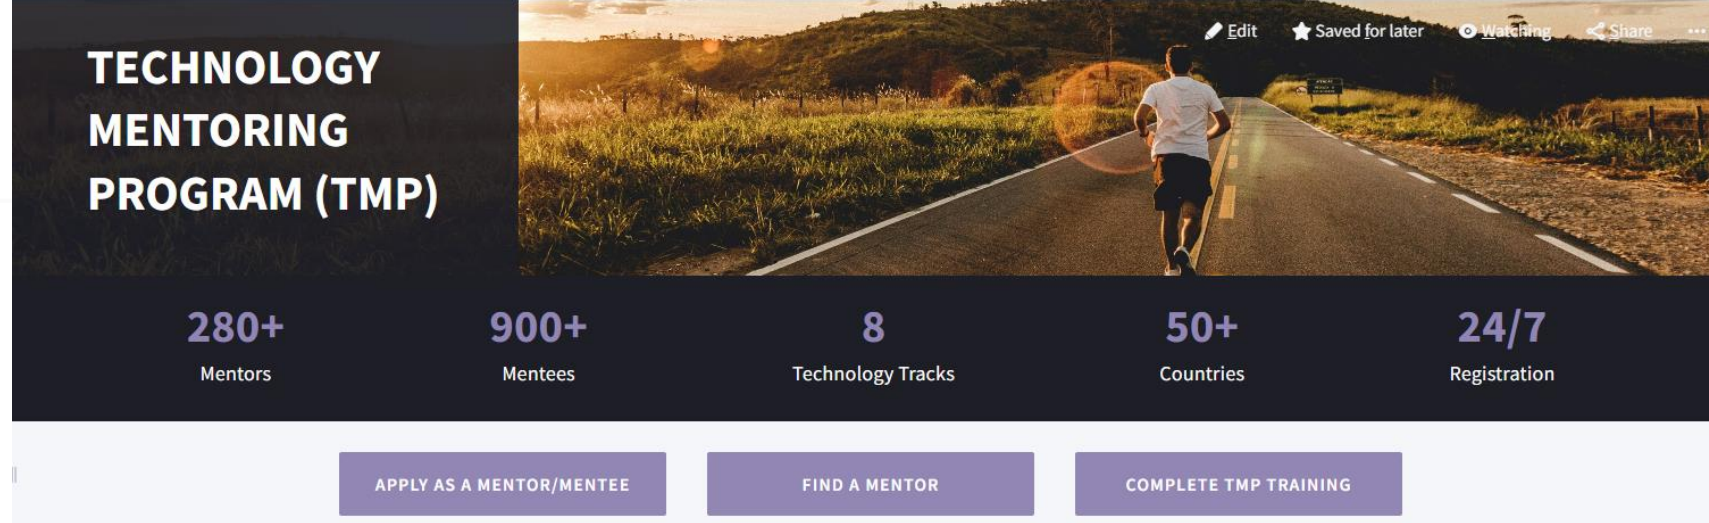

- Experience-sharing weekly webinars, Technology Vision round tables and monthly tech news

TARGET AUDIENCE:

- A3+ /B1+ (Architects / Advanced Engineers / Delivery Managers / Technology Consultants are included by default) – 5100+ members globally

OPPORTUNITY:

- Join as a speaker / participant <https://epa.ms/tei>
- Join and watch TEI community webinars <https://wearecommunity.io/communities/tei>

This is a practice-oriented program whereby mentors pass on their experience to help mentees achieve their practical goals, implement changes in work, develop their growth mindset, maximize their potential and grow to the highest technology levels.

WHAT'S INSIDE:

- 7 technology tracks
- 1on1/group mentoring / advising / pre-assessment with a Mentor based on SMART practical Mentee's goals

TARGET AUDIENCE:

- B1+ technologists or A4+ who already act as Architects / Advanced Engineers / Technology Consultants
 - ✓ Support during onboarding
 - ✓ Guidance on production cases
 - ✓ Building a personal growth plan
 - ✓ Preparation for EPAM Assessment
 - ✓ Engagement in technology activities
 - ✓ Developing client readiness and leadership capabilities
 - ✓ Crafting strategy / implementing innovations
 - ✓ Etc.

OPPORTUNITY:

- Join as a mentor / mentee on <https://epa.ms/tmp>

**TECHNOLOGY
SOLUTIONS
UNIVERSITY (TSU)**

980+
Certified
Technologists

6
Technology
Faculties

50+
Countries

24/7
Registration

APPLY FOR THE PROGRAM

This is continuous self-paced educational program for B-track Technologists to obtain certification / pass trainings / read books of the worldwide leaders in technology learning (external vendors).

WHAT'S INSIDE:

- 6 technology faculties
- Structured continuous roadmap with various external professional certifications & training modules aligned with technology title requirements

TARGET AUDIENCE:

- B1+ technologists or A4+ who already act as Architects / Advanced Engineers / Technology Consultants

OPPORTUNITY:

- Join as a participant <https://epa.ms/tsu>

TECHNOLOGY RECOGNITION PROGRAM

We believe that everyone deserves to be a hero. To provide visibility and recognize achievements of B-track technologists across EPAM, we've developed a special Technology Recognition program that includes 5 areas below and won't let your work go unnoticed. Check it out!

HEROES BADGES

OPPORTUNITIES

CONTRIBUTION BONUS

TECHNOLOGY HALL OF FAME

EPAM IMPACT AWARD

We all want to know that our work is valued, and that's natural – recognition really does motivate us to keep going.

To provide visibility and recognize your incredible achievements, **9500+ technology heroes badges** were granted in 2022 and **1700+ technologists were rewarded** for their extra-mile efforts with a contribution bonus in 2022 as part of the Technology Recognition program:

CEO Awards
200 badges

Going Extra Mile
2158 badges

Sharing Expertise
492 badges

Growing
Continuously
6632 badges

<https://epa.ms/technology-recognition>

TECHNOLOGY HALL OF FAME 2021

Technology Hall of Fame recognizes the B-track Technology Top Contributors as part of the [Technology Recognition Program](#) who have put the extra mile efforts into the company's global initiatives such as [Technology Programs](#), [Technology.epam.com](#), [Assessment](#), [Interviewing](#), disciplines development, etc. Usually, the Hall of Fame represents ~ 30% Top Contributors and has the following tracks:

TECHNOLOGY B-TRACK

ARCHITECTURE

ADVANCED ENGINEERING

We are happy to release a new Technology Hall of Fame 2022 to recognize top technology contributors for massive extra-mile contribution.

THANK YOU FOR YOUR VALUABLE CONTRIBUTION IN 2022!

<https://epa.ms/technology-hall-of-fame2022>

4. Intro to Advanced Software Engineering

Industry outlook

ENGINEERING

ASE Positioning

Market investigation results

ENGINEERING

We have analyzed big tech companies and built a competitive track for Engineering growth

SDE 59	L3 SWE II	SDE I L4
60		
SDE II 61	L4 SWE III	SDE II L5
62		
Senior SDE 63	L5 Senior SWE	SDE III Senior SDE L6
64		
Principal SDE 65	L6 Staff SWE	Principal SDE L7
66		
67	L7 Senior Staff SWE	Senior Principal SDE L8
Partner 68	L8 Principal Engineer	Distinguished Engineer L10
69		
70	L9 Distinguished Engineer	
Distinguished Engineer 80	L10 Google Fellow	
Technical Fellow		

KEY TAKEAWAYS:

- Technical architect titles mainly looks like our Chief Engineer.
- Principal engineer usually looks more mature than our Chief.
- Really not a lot of the information about EPAM Systems in the internet sources. Nobody knows us from Engineers side.
- Top product engineering companies have strong engineering path.
- Top engineers usually involved in creating complex new products.

Why to become ASE

ENGINEERING

BENEFITS

- Stay an Engineer - work hands-on
- Be recognized, influence and spread Engineering Culture
- Build professional network with top Engineers

More is coming:

- Be connected and stay aware of the most complex and challenging Engineering work

BENEFITS

- Participate in ASE initiatives at ASE which is a part of [Technology Recognition Program](#)
- [O'Reilly subscription](#) (free access to all books, trainings and other materials by filling out this form)
- All-in-one [ASE Software Package](#)

For whom might be interesting

ENGINEERING

- Technologist by heart who has hands-on expertise with deep technical knowledge of engineering and systems of different complexity levels as well as comprehensive knowledge of different cutting-edge technologies in different domains OR eager to acquire the knowledge by hands
- Has strong problem-solving skills with a focus on results
- Has systems engineering (to enable the implementation of successful systems) and systems thinking skills (to decompose existing systems and recompose them in new ways with new approaches and technologies)
- Is eager to learn continuously and is ready to share knowledge through ANY possible activities such as trainings, mentoring, public speaking, blogging, etc.
- Engineers who are willing to go beyond typical requirements, who want to build something not just according to specs, but something they could really proud of. Something which will delight the users.
- People who love to code and want to stay technical/hands on. And People who like coding more then documentation 😊
- **Engineers** who would like to grow as an Engineer
- **Architects** who want to focus more on hands-on engineering daily
- **Managers** who want to get back to Engineering

If anything of those echoes in you... WELCOME

ASE Maturity and Roles

ENGINEERING

<https://epa.ms/aseWhoIsAse>

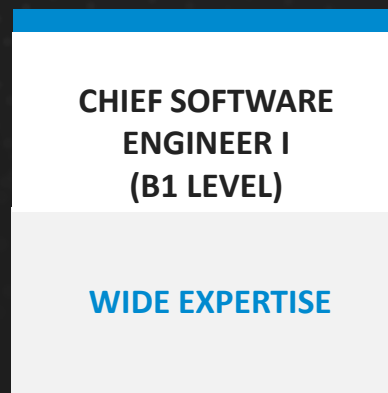

Technical Performer

Professionals who are focused on practical implementation. Results-oriented.

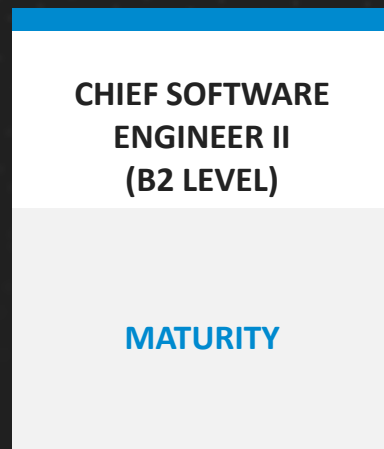

Technical Expert

Know how to achieve goal with different approaches due their experience. Exceptional technical professionals. Focused on technical problem solving. Could be part of SWAT team for fixing technical issues.

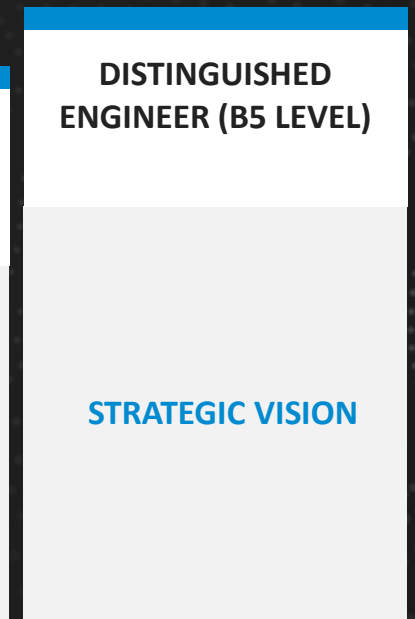

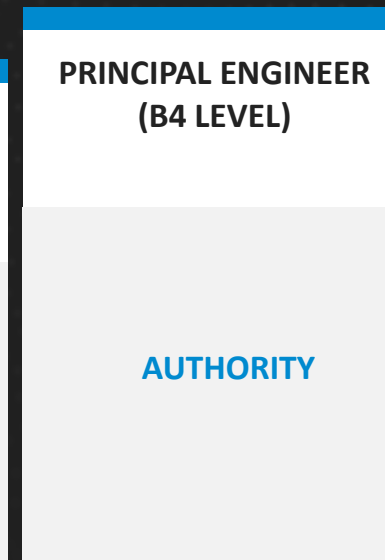

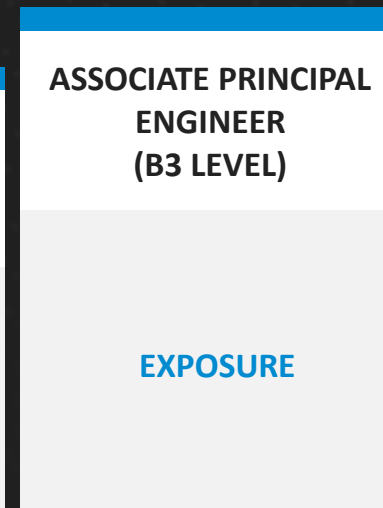

Technical Partner

Mature experts who know how to adopt strategies provided by technical leadership into practical implementation. May lead new directions.

Technical Leader

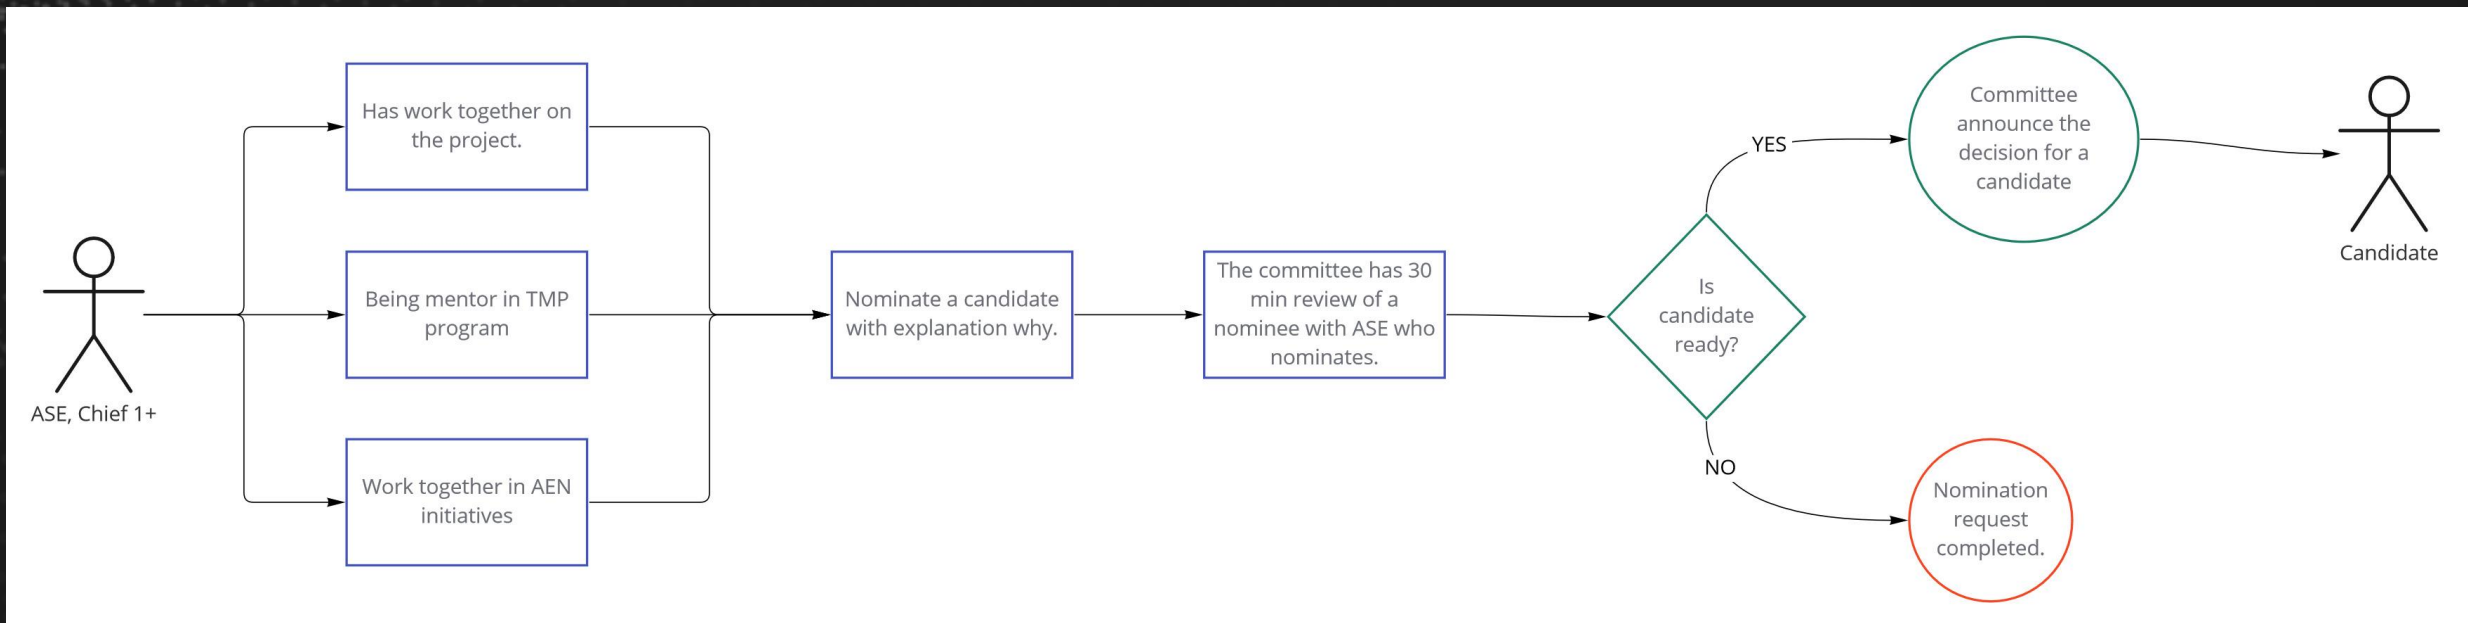

Define vision and strategy in technical fields.

How to become Associate Chief SE

ENGINEERING

<https://epa.ms/aseASMT>

ADVANCED ENGINEERING: OUTCOMES 2022

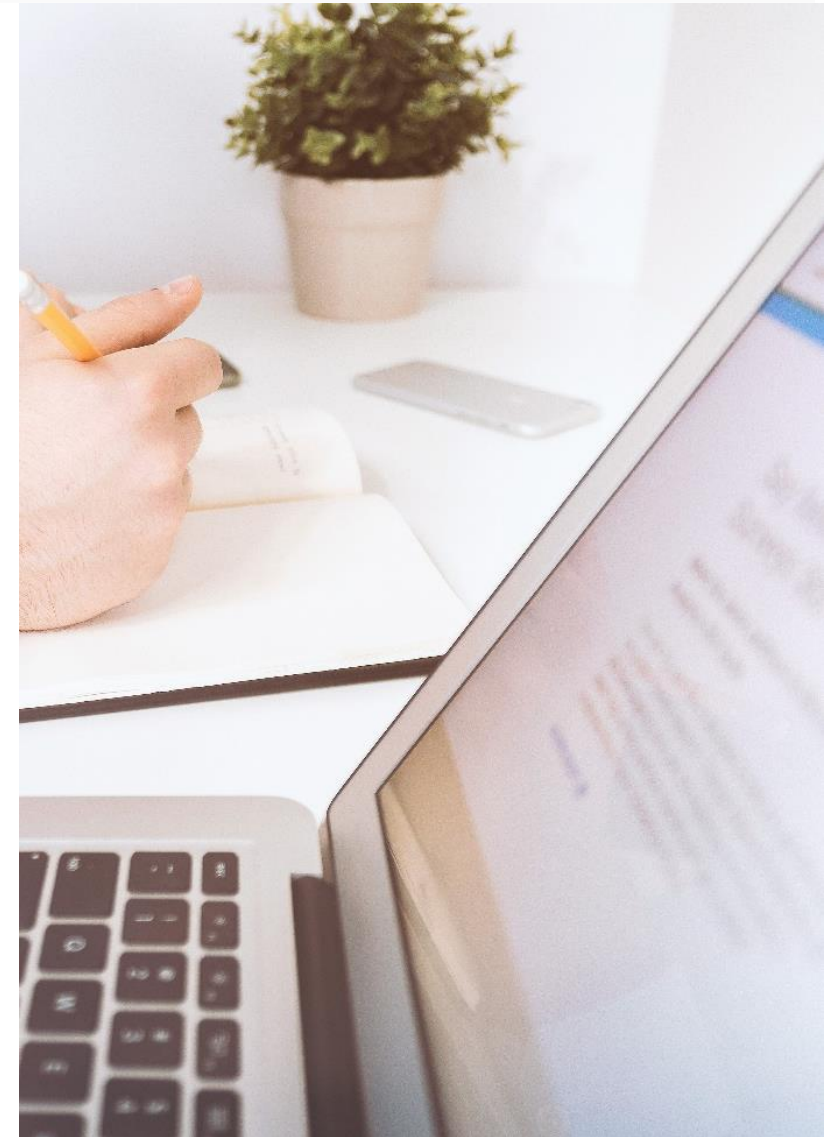

- Discipline started with **42** engineers at the beginning and now we have **82** Advanced Engineers
- We conducted **50+ assessments** and **30+ TIs**. Our assessments have astonishing **74% pass rate**
- Advanced Engineering Network processed **80+** requests sharing experience, helping solve engineering challenges
- Our ASE Engagement program just introduced “Principal Engineer” role for our projects in staffing. Please use it, when you need ASE on your project
- We introduced new **Associate Chief title**, amended the assessment process (nomination, simplified, TI)
- Our Codeberry.club community (<https://www.youtube.com/@codeberryclub2956>) organised **6** events with total of **13** talks delivered on different engineering topics such as “Completable FUTURE Story of broken rules and developer's pain” and “Current state of Python language”
- **15** ASEs participated as mentors in Technology Mentoring Program
- ASE Katas created and delivered on topics like - Intermediate introduction to ELK stack (9h) and Running Java workloads in clouds with Spring Boot, Docker and Kubernetes (2h)
